

Roblox **Enum.KeyCode** Special Key Assignments

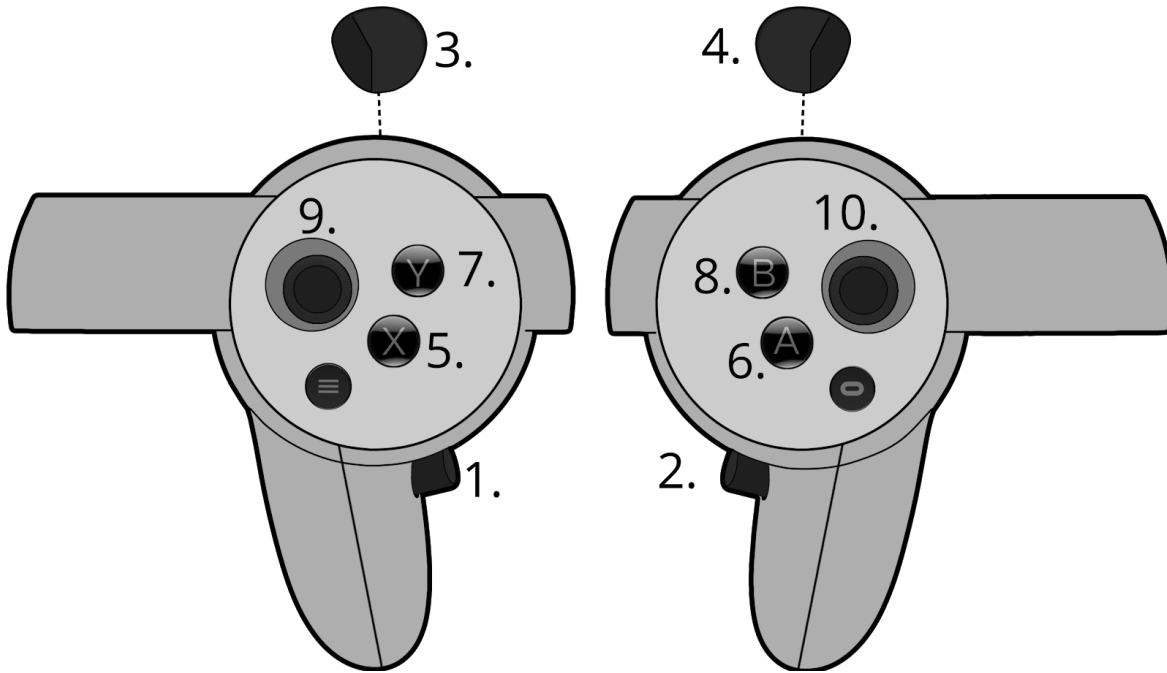

Written by **Discgolftaco231**.

This guide lists each special KeyCode (ie. ButtonR2) and their functionality.

Oculus (Rift, Rift S, Quest, Quest 2):

Left

Right

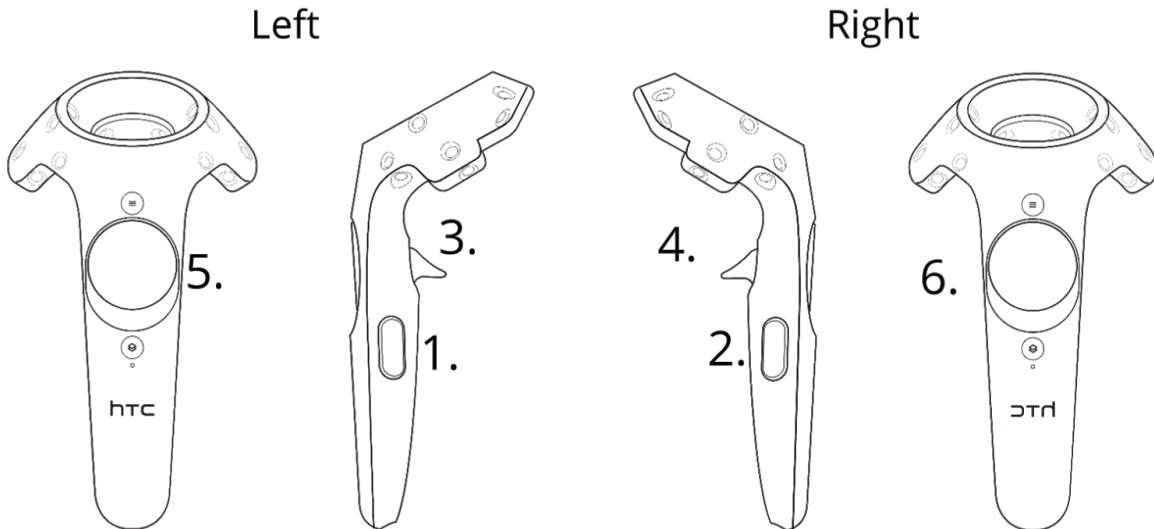

Number	Assign	Description
1.	Enum.KeyCode. ButtonL1	Left Side Grip Button
2.	Enum.KeyCode. ButtonR1	Right Side Grip Button
3.	Enum.KeyCode. ButtonL2	Left Side Trigger Button
4.	Enum.KeyCode. ButtonR2	Right Side Trigger Button
5.	Enum.KeyCode. ButtonX	X Button
6.	Enum.KeyCode. ButtonA	A Button
7.	Enum.KeyCode. ButtonY	Y Button
8.	Enum.KeyCode. ButtonB	B Button
9.	Enum.KeyCode. ButtonL3	Left Thumbstick (All Dir)
10.	Enum.KeyCode. ButtonR3	Right Thumbstick (All Dir)

HTC Vive:

Number	Assign	Description
1.	Enum.KeyCode. ButtonL1	Left Side Grip Button
2.	Enum.KeyCode. ButtonR1	Right Side Grip Button
3.	Enum.KeyCode. ButtonL2	Left Side Trigger Button
4.	Enum.KeyCode. ButtonR2	Right Side Trigger Button
5.	Enum.KeyCode. ButtonL3	Left Trackpad (All Dir)
6.	Enum.KeyCode. ButtonR3	Right Trackpad (All Dir)

HTC Vive controllers have limited functionality when it comes to buttons. Try spending more time making your game compatible with Oculus headsets first, then go to HTC.

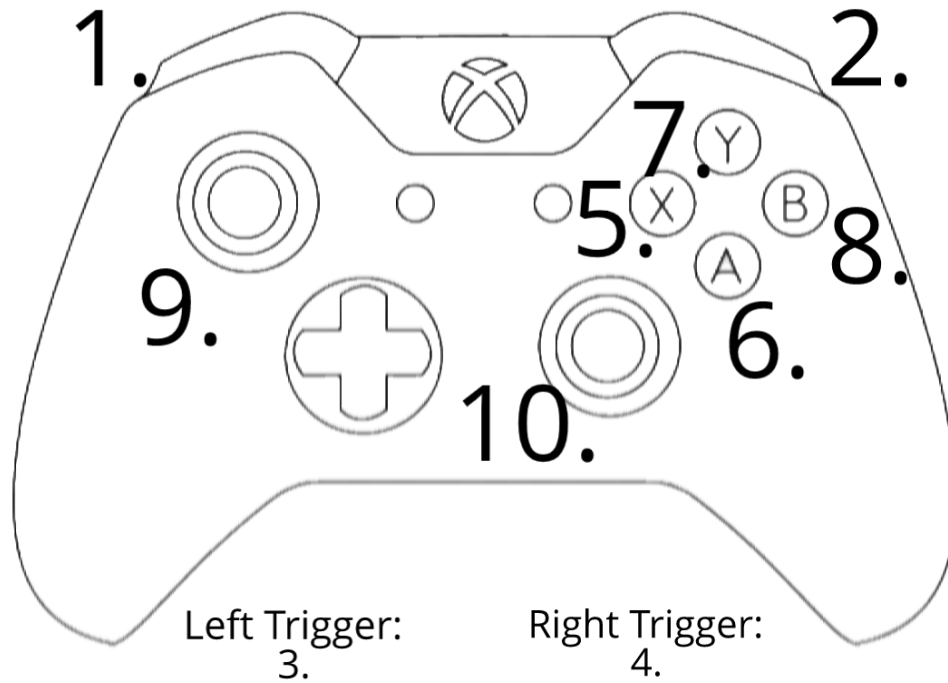

If you do need the extra functionality that the Oculus Touch controllers have, you will need to use combinations of the listed buttons to perform a function in-game.

Other HTC headsets may be compatible with Roblox, but the only known one right now is the Vive. Oculus Quest and Quest 2 are compatible with Roblox using Oculus Link or Virtual Desktop.
